INTRODUCTION

My name is Stamatios Tentsos. I'm a web designer, graphic designer, illustrator and 3D artist. When it comes to design I've always been consumed by somewhat of a wanderlust so over the years I ended up becoming a Jack of many trades. I find the process of delving into new design territories rather refreshing and exciting so I generally try to keep things interesting. My work is mostly digital but I do enjoy occasionally dabbling with the more traditional media as well. Feel free to browse through my website to get a better feel of my work.

I am currently based in Kavala, Greece but I am more than willing to relocate anywhere on the planet should the right opportunity arise.

EDUCATION

Undergraduate: degree in Graphic design by the *Technological Educational Institution of Athens* (2003) (IKY scholarship).

Postgraduate: Masters of Art degree with distinction in 3D computer animation by the *University of Bournemouth* (2006).

WORK EXPERIENCE

2003-2005: 6 month internship followed by a Graphic designer position in *Smartland Creative Promotion* (advertising agency based in Athens, Greece).

2007-2008: Communications NCO position (155-00356603 OR-3) in the *163rd Mobile Artillery Battalion* (at the time stationed in Lagos, Greece). I received broad training in wired and wireless military communication systems, mobile artillery weapon systems (including the PzH2000 operating system) as well in the fundamentals of cipherring and deciphering. I graduated from my training in the top of my class and I am sure all the skills I acquired will be of tremendous use next time I get to man a Panzer 2000 (hopefully never). Amongst other things, I served as the Lead Scribe of the Battalion's 1st Office between May 2007 and May 2008.

Note: Army service is mandatory for Greek male citizens. Although joining the military was not a personal choice I excelled in my assigned duties nonetheless and was eventually awarded an OR-3 honorary rank in 2008. I was dismissed with a perfect record and I am not looking back.

June 2011-July 2012: Freelancing mainly as a graphic/ web designer. I also worked on some 3D illustration projects.

January 2013-January 2015: Web Designer/ Graphic designer position at *Allegría Discover fun in business*. The position allowed me to hone a wide range of skills including web design, graphic design, video editing and illustration projects.

SOFTWARE SKILLS

Graphic design / Web Design / illustration

Adobe Photoshop
Adobe Illustrator
Adobe InDesign
Adobe Flash
Adobe Dreamweaver
CorelPainter
Manga Studio EX.

Video editing:

Adobe Premiere
Adobe After Effects

3D art:

Autodesk XSI
Pixologic Zbrush

Web Design platform experience:

I've worked primarily on Wordpress and Drupal websites

GMS

Wordpress

STYLE SHEET LANGUAGES

css

OBJECTIVE

I enjoy pretty much anything that has to do with Web design, Graphic design, Concept Art, 3D modeling and illustration. I am also familiar with texturing, rigging and UV unwrapping. I love trying new styles and techniques and I try to keep my style as fresh and flexible as possible. Given a choice I would much rather work in a group rather than as a freelancer. I function best in an office environment with loads of people.
